Made
With
Love

*whatever the opposite
of repointed is...*

BT Comic Fans takes our favorite font to hate and shows it a bit of love. All corners and angles have been removed, embracing the curve, making it a lovely face for playful display. But don't be fooled, this redrawing centers use at small sizes. Try it out and maybe make it your next text face.

ABC'S
of
THE
BODY

*soft like
our bodies*

BT Comic Fans is a love letter to the body and all its queer beauty. Not only is type in general named after our bodies, it is an extension of ours. And with a face so clearly rooted in the hand, this redrawing becomes a mirror of the body from which it was drawn.

never
just a
slant

back to the basics...
an italic is not a slant

Along with the full redrawing, a fleshed and considered Italic was drawn. Forms were altered to relate more to cursive and script; where the italic form was originally derived from. And with this it feels familiar like you've drawn it yourself.

*now just for fun...and
to make the designers mad*

It's interesting to call something "sans" in a vacuum...sans what? Well, here it is. Found burried beneath the remains of an ancient civilization that can only be found by following a map on the back of Bringhurs's "Elements of Typographic Style" Comic Serif
